### Comments:

A total of 400,557 tonnes was crushed last week, which is the best weekly total for the season to date. Inkerman and Invicta mills achieved their highest weekly throughput for the season.

More than 20 per cent of the forecast crop has now been processed, with actual cane yields cutting very close to estimate overall.

In the coming week, Pioneer Mill and Invicta's B side will stop for a clean on Tuesday while Inkerman Mill will stop for a clean on Thursday.
