Comments:

A season best 412,000 tonnes was crushed in a week where no mills had scheduled cleaning stops. Invicta also had a season best throughput.

All mills are planning stops this week. Pioneer and Kalamia will stop on Tuesday while Inkerman and Invicta's B side will stop on Thursday.

More than 50 per cent of the forecast crop has now been processed. If current estimate and weather trends continue, the 2017 crush could finish in the second week of November.
