

9 MARCH 2018 – BURDEKIN PCYC  
9AM-11AM – MORNING TEA PROVIDED

# FERAL PIG WORKSHOP

## The Workshop

Burdekin Shire Council with assistance from Queensland Government funding through NQ Dry Tropics is continuing efforts to control feral pigs throughout the Burdekin landscape with a Feral Pig Workshop.

This workshop is for all landholders with feral pig issues. Those pressed for time on the land will appreciate the latest technology in wireless pigtraps with Southern Cross Trapping.

Council and Biosecurity Queensland will update the audience on services and obligations of landholders. Burdekin Productivity Services and Conservation and Wildlife Management Queensland will give landholders options with their knowledge and services, and NQ Dry Tropics will give an overview of collaborative Natural Resource Management in the Burdekin.

## The Presenters

### **NQ DRY TROPICS – Rachael Payne**

*Collaborative Natural Resource Management  
in the Burdekin Dry Tropics region*
