#### **Comments:**

Our Burdekin factories seem to have settled in quite well, achieving a good throughput of 369,000 tonnes of cane in week two of the season.

There will be stoppages at three of the mills this week for scheduled cleans: Invicta's B side on Tuesday, and Pioneer and Inkerman mills on Thursday.

The highest CCS sample for the week was 16.65, recorded in the Inkerman area.

With school holidays due to commence on Friday, parents and guardians are urged to remind children about the importance of staying well clear of train corridors and agricultural operations.
