21ST PRECISION AGRICULTURE SYMPOSIUM IN AUSTRALASIA

10-11TH SEPTEMBER 2018

@ IAN MCCLAUGHLAN ROOM, ADELAIDE OVAL, ADELAIDE
SA FROM 12 NOON

Join us in our 21st premier PA event aimed at all farmers, advisers and researchers using precision agriculture.

LEARN – SHARE - CONNECT & BE INSPIRED

Come and hear and see developments in PA across broadacre, horticulture, viticulture and livestock production. Exciting new technologies, applications and research programs will be on show.

Held over two days, the program is designed to engage you and get the most out of your farm and agricultural business and showcase why Australia is leading the way in the PA R&D space.

Topics include;

Future farm

remote sensing

sensors

Livestock tags

digital ag and data analysis

soil pH mapping

Aerial imagery

machine learning

satellite IoT

- Latest developments from leading Australian researchers and advisors using and studying PA technology, showing how PA can be used to improve the management across many agricultural industries.
- Hear examples from growers of how PA technologies improve their management and MORE!

This year our program includes diversity;

SPAA and the Precision Ag Lab brings to you the Precision Agriculture Symposium and this year promises to be a fantastic showcase of innovation and ag technology as well as highlighting the innovative spirit of growers from all sides of agriculture to industry partners, investors and sponsors. This year we continue to build on our successes and offer an exceptional program and speakers, exhibits, demonstrations, networking and so much more!

- Hear from the Food Agility CRC Chief Scientist Professor David Lamb
- Research updates from CSIRO, University of Sydney's Precision Ag Lab, University of New England's Precision Ag Research Group, Federation University, Uni SA, Deakin University and University of Southern Queensland NCEA.
