Comments:

Just over 391,000 tonnes of cane were crushed across the four local mills in a week that included lengthy stops at Invicta's B-side and Kalamia. Both factories completed cleans during this downtime.

In the coming week, Inkerman will stop for a caustic clean on Thursday.

The highest CCS sample for the week was 18.0 from a rake of Q183 plant cane, recorded in the Inkerman area.

Members of the public are reminded to take care as they approach all cane rail crossings. Our cane trains operate 24 hours a day, seven days a week.

Please report any flashing light issues through the 1800 number displayed on the poles at our active crossings.
