

Welcome to your weekly overview of key QSL news and information.

Update your Cash Flow Forecast

The Standard QSL Advances rate increased by 5% this week, bringing it to 80%. Payments were processed and statements are now available on the online portal. Growers using the QSL Direct online portal are reminded again to update their Cash Flow Forecast to reflect this new Advance rate payment. The Cash Flow Forecast generated within QSL Direct is an estimate of QSL payments only, and does not factor in any existing amounts within your ledger, or deductions or allowances passed on by your miller. The next approved Standard QSL Advance rate increase is scheduled to be 2.5% from 21 February 2019, raising the Standard Advances rate to 82.5%.

Register your interest in a Mackay shiploading tour

Are you a Mackay-region grower keen to catch a sugar vessel being loaded? The QSL Marketing team is currently taking expressions of interest for potential site tours to witness a QSL sugar sale shiploading at the Mackay Bulk Sugar Terminal on 4 and 5 February. For more information, call Sonia on **4967 4618** or email her at sonia.ball@qsl.com.au.

Herbert River & Burdekin sugar market briefings

QSL Treasury Manager Ginette Barrett will be in the Herbert River and Burdekin regions next month to update growers on the sugar market, including trading activity, key drivers and our current market view. Ginette's visit provides an

ideal opportunity for you to chat with one of QSL's expert marketing personnel. Session times will be released shortly, however you can register your interest by contacting your local QSL representative (see contact details below). Session dates are:

Herbert River: Wednesday 20 February 2019.

Burdekin: Thursday 21 February & Friday 22 February 2019.

QSL Growers Services team

The QSL team is committed to providing you with the information and services you expect from Queensland's largest and most experienced sugar marketer. For information about any aspect of marketing or pricing with QSL, please contact your local representative:

QSL Market Update

Last week prices rallied, representing a retracement of the previous week's losses. The MAR19 contract reached a low of 12.63c/lb last Monday, before posting its high on the Wednesday at 13.27c/lb, eventually closing the week at 12.78c/lb. Crude oil stability, increased ethanol parity in Brazil and rumours of less Indian exports were among the reasons for the rally.
