

OFFER OF AN INCENTIVE FOR PURCHASING CLEAN SEED CANE.

Dear member,

Your directors remain committed that it is in all members' interest to seek to maximise the use of clean seed cane in planting to minimise the risk of disease in your crop.

As a result the Directors have decided that Kalamia Cane Growers Organisation Ltd will once again extend members an incentive for 2019 purchases of clean seed cane subject to the following conditions:

- Rebate of \$10 per tonne for clean seed cane purchased up to a maximum of 25 tonnes (i.e. maximum rebate payable of \$250).
- Members are eligible for rebate irrespective from which plot seed cane is purchased from.
- Rebate is only applicable to "Approved Seed" as per Burdekin Productivity Services Approved Plants Prices list i.e. Rebate does not apply to "Commercial Plants or Mother Plot Plants".

It is recommended that growers confirm with BPS field staff prior to purchase that "Approved Seed" is being acquired and is not "Commercial Plants or Mother Plot Plants" in order to be eligible for rebate.

To receive this incentive please provide copies of your seed cane purchase invoices and evidence of payment (by email, fax, and post or in person) to the Kalamia office and we will promptly process a refund to your nominated account.

Burdekin Productivity Services has also asked that growers articulate to them your seed plant requirements as soon as practical.

Plot opening date will be advised in due course.

Regards

Les Elphinstone

Manager KCGO/Company Secretary
