Welcome to your weekly overview of key QSL news and information.

App ushers in new era

Got the new QSL app yet? It's a first for our industry and has been designed to give Queensland cane growers simple and secure access to the global sugar

market via phone or tablet. You don't need to have a QSL Direct account to use it and it's available free to anyone through the App and Google Play stores. Key features include:

- Global sugar prices, including QSL's Target Price and Individual Futures Contract prices for the current season through to the 2022 Season.
- Indicative QSL pool values
- Fast and secure access to your QSL Direct account via PIN, fingerprint or face recognition
- Details of your pricing choices and declarations for current and future seasons (QSL Direct growers only)
- The ability to make, edit and cancel your QSL sugar pricing orders (QSL Direct growers only)
- Calculators to quickly make common cane and sugar conversions, including cane tonnes to GEI Sugar tonnes, \$/tonne of cane to \$/tonne of sugar, and actual tonnes to IPS tonnes.
- Regular market and QSL news updates and notifications
- Quick contacts to reach QSL

QSL Market Update

Following an explosive technical reversal the week prior, raw sugar futures spent the entire week (last week) consolidating the move and trading sideways in the low 12 c/lb range. Upward momentum ultimately stalled on the Tuesday with prices uncovering significant lateral resistance at the 12.30 c/lb level, before trading lower over the remainder of the week on low volumes.
