

22ND PRECISION AGRICULTURE SYMPOSIUM 9-10TH SEPTEMBER 2019

The Tramsheds Function Centre, 4 Invermay Rd, Launceston Tasmania

STARTING AT 10:30 am

LEARN – SHARE – CONNECT & BE INSPIRED

This year we have an exciting line up with focus on the diversity of Agriculture in Australia. What better location to demonstrate this than Tasmania?

There will be research updates from Australia's leading universities and government agencies in the PA space including UNE, Uni Syd, QDAF, TIA.

Exciting grower speakers will be present to discuss real world point of views

- Soil Moisture monitoring and prescription irrigation
- PA management systems and how they can benefit vegetable production
- Zone Management in Vineyards

The key topics for 2019 are

- Grower implementation of PA tools
- Precision Agriculture in Vegetables
- Soil monitoring technologies
- Crop quality sensing
- Precision Irrigation systems
- Developments in robotics
- Precision drainage
- Updates from industry
- Remote sensing platforms
- Data integration systems

Held over two days, the program is designed to engage you and get the most out of your farm business.

Accommodation

There are a range of accommodation options (and price points) in Launceston, many within easy walking distance of the conference venue.

The Best Western Plus Launceston is the preferred accommodation supplier of the Tramsheds and is a convenient 10 minute walk away. Please quote 'TRAMS' when booking at Best Western on (03) 6333 999 or www.bestwestern.com

Should you choose to drive ample parking is available at or near to the Tramsheds.
