

Thursday, 26 September

Dear Peter

- Powerlink's contractors finalised testing on the Invicta substation overnight and power was restored to the mill at 5.30am today.
- We have commenced our factory restart procedures.
- A number of plant items have already been re-commissioned.
- We still need to work through a large number of issues before we can resume crushing.
- Based on current plans, crushing is expected to recommence late tomorrow.
- Logistics officers will be in contact with harvesting groups to make arrangements for restricted harvesting to resume tomorrow.
- No harvesting is to commence until logistics officers have been in contact, as loading may change, depending on the success of the re-commissioning process overnight.

Best regards

Paul Turnbull

Burdekin Regional Operations Manager
