Dear Peter

- We are planning to re-start crushing operations at Pioneer Mill tomorrow night - four days ahead of schedule.
- Crews are today completing final recommissioning works and we plan to light up No. 2 boiler this evening.
- Our logistics officers are in the process of contacting harvesting groups to arrange for additional cane to be burnt in the Pioneer Mill area later today.
- I will continue to keep you updated.

Best regards

PAUL TURNBULL

Burdekin Regional Operations Manager
