

Lower Burdekin Water has **two casual, temporary positions** available in the Operations Team.

- Positions:** Field Officer & Maintenance Officer
Duration: for a period of 3 months
Starting: immediate start
Hours: both positions have a base working week of 38 hours, with the opportunity for overtime as it arises
Wage: will be commensurate with experience under the Modern Water Industry Award 2020
Duties: machine operations, water distribution, meter reading, meter installation and maintenance, general plant and equipment maintenance and repairs and chemical spraying

Applicants must have:

- Excellent communication skills
- knowledge/understanding of Workplace, Health & Safety in today's work environment

Applicants need to be safe, energetic, positive, reliable, trustworthy and self-motivated people.

Applicants with the following qualifications and experience will be preferred:

- Operating heavy machinery including heavy combination trucks
- Competency and relevant licences for operating excavators, forklifts and loaders
- Civil construction
- C, HR and HC class driver's licence.
- Communicating with suppliers and purchasing materials and services
- Relevant trade certificate (Maintenance Officer)
- Identifying and managing operational hazards and working under safe work procedures
- Operating water distribution infrastructure
- Preventative and proactive maintenance of general machinery and water infrastructure (eg pumps, water meters)
- Chemical accreditation and competency
- Relevant certifications in First Aid, WHS, meter reading and maintenance
- Local knowledge of Lower Burdekin Water's authority area and infrastructure
