

Dear Grower

The ongoing COVID-19 situation means that some of our upcoming industry updates will be presented in a webinar format. We invite you to join us for the below webinar on yellow canopy syndrome (YCS).

What What is yellow canopy syndrome (YCS)? Presentation by Gerard Scalia, SRA.

When May 6 2020 7:30 AM - 8:30 AM (AEST)

Join Online [click here](#)

Instructions Use the calendar button (top left of this box) to add this webinar to your online diary. Click on the link within the calendar invite five minutes before the meeting.

WHAT IS YELLOW CANOPY SYNDROME (YCS)?

Please join Sugar Research Australia Researcher Gerard Scalia for this update on recent research and findings from the YCS research program.

In the webinar, Mr Scalia will discuss the latest findings on what YCS is, its symptoms, and what this means for you as a grower.

WHEN: Wednesday 6 May, 7.30am

WHERE: Grab a coffee and join us from your home office / computer

Please join a couple of minutes before 7.30am, as we will be starting the webinar right on 7.30.

You will also need sound on your computer and an internet connection. There will be opportunities for questions at the conclusion of the presentation.

THIS PRESENTATION WAS ORIGINALLY PLANNED FOR A NUMBER OF GROWER RESEARCH UPDATES BUT HAS BEEN MOVED TO AN ONLINE FORMAT IN RESPONSE TO THE COVID-19 PANDEMIC.

SRA IS COMMITTED TO CONTINUING TO BRING YOU INFORMATION ON RESEARCH, DEVELOPMENT AND ADOPTION ACTIVITIES DURING THE COVID-19 SITUATION. THIS MEANS THAT WE ARE USING ONLINE TOOLS SUCH AS VIDEOCONFERENCING, WEBINARS, AND OTHER DIGITAL TECHNOLOGY.

If you have any questions please email Samantha Ryalls, Sugar Research Australia
