

GET BEHIND YOUR AUSSIE FARMERS - THEY NEED YOUR SUPPORT

Farmers are taking the battle over the stealthy rise of Reef Regulations by the Palaszczuk Government direct to State Parliament. An MP-sponsored petition calls for the Environmental Protection (Great Barrier Reef Protection Measures) and Other Legislation Amendment Act 2019 to be revoked. It also demands the establishment of an Office of Science Quality Assurance to check the science being used to make political decisions. The petition is open to every Queensland.

SIGN THE PETITION

Queensland citizens draw to the attention of the House the lack of assistance and aid provided to our producers. Farmers feed us all and need protection and support, not more red tape.

Petition sponsored by Member for Burnett Stephen Bennett MP

Your petitioners, therefore, request the House to revoke the Environmental Protection (Great Barrier Reef Protection Measures) and Other Legislation Amendment Act 2019 and establish an Office of Science Quality Assurance to check the science being used to make political decisions.
