

The Queensland Energy Class Action is an action to reimburse Queensland businesses

The QLD Energy Class Action is a legal claim being brought against Stanwell Corporation Limited and CS Energy Limited on behalf of all business and residential electricity consumers in Queensland.

We allege Stanwell and CS Energy gamed the electricity pricing system and artificially inflated consumers' electricity bills.

Hardest hit were the energy-intensive industries that underpin Queensland's economy.

Queensland Energy Class Action Check List

Is your business eligible to join the class action?

Your business is eligible to join the class action if it has paid for electricity in Queensland between August 2014 - December 2019.

YES NO

☐ ☐

Will it cost my business to join the class action?

No, the class action is litigation funded. The funder assumes the financial risk of bringing the claim in exchange for a share of any amount recovered.
