#### Comments:

The Burdekin mills processed just under 390,000 tonnes of cane for the week.

Throughput was impacted by unplanned stops at Inkerman and Pioneer mills.

Average weekly CCS remains at 15.0, the same as last week.

The highest CCS sample was 18.0 from a rake of Q240 plant cane in the Pioneer area.

The Burdekin mills will reach the halfway mark for the season early this week.
