

ERGON ENERGY – LOOK UP AND LIVE

Ergon's Principal Community Safety Specialist Glen "Cookie" Cook recently visited the offices of Kalamia Cane Growers Organisation to provide a brief on the current "Look up and Live" campaign including the availability of an mobile app that is now in app stores which includes online mapping that pinpoints the location of overhead powerline and poles throughout Queensland.

Cookie also highlighted the importance of all growers and contractors being aware powerlines on their properties and their working environment.

Ergon Energy have also developed eyecatching "Rotamarkas" which are available for landholders to purchase as a visual warning for powerlines located on/adjacent to their properties.

Additional information in relation to the campaign, mobile app and Rotarmarkas can be found on the following links.
