Please join Sugar Research Australia's Senior Researcher Emilie Fillols for this update on Weeds.

This webinar will concisely present past and current knowledge of the main weeds of sugarcane, their economic impact on cane and proven management practices. This webinar will also review a range of novel technologies and weed control techniques applied overseas or in other cropping industries for their potential application and benefit to the Australian cane industry.

Please note that the recording will be available on the SRA website after each event. If you have any questions please email [Brad Pfeffer](#), Sugar Research Australia.

**What** Weeds- their impact on cane production and their management. Current knowledge and gaps.

**When** Oct 7 2020 8:00 AM - 9:00 AM (AEST)
