Weekly variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	31	14.73	Q232	4	14.12
Q183	26	15.51	Q247	3	14.58
KQ228	18	14.88	Q253	2	13.28
Q208	14	15.46	Q232	1	15.79

Comments:

The Burdekin mills processed just over 125,000 tonnes in the final week of crushing for 2020.

Inkerman and Pioneer mills both crushed out on Saturday morning. Inkerman finished at 2.14am Sunday with a total of 1.64 million tonnes and Pioneer at 9.52am Sunday with a total of 1.62 million tonnes.

Average weekly CCS increased to 15.0 units. The season average CCS of 14.60 units finished slightly above budget.

The highest CCS sample was 18.35 from a rake of Q208 third ratoon cane in the Inkerman area.

I would like to thank everyone in the growing, harvesting, transport and milling sectors for the hard work that went into getting this year's crop off.

To all members of the Burdekin community, I extend my wishes for a Merry Christmas and prosperous New Year.

John Tait
Cane Supply Manager
Burdekin Region
