Self-Managed Harvest pricing underway

Pricing is now open in the 2021-Season Self-Managed Harvest Contract, following the close of nominations last week.

Under this self-managed pricing option, growers price their own QSL Harvest Pool allocation, with the final 20% of this tonnage used as a production buffer that is priced after delivery.

First time users of this product are reminded that they have until 15 September 2021 to price their tonnage allocated to the October 2021 contract, but can extend this pricing window by electing to roll on or before this date.

For more information about this product, please talk to your local QSL team or read the Pool Overview, [available here](#).

Guaranteed Floor Pool price set

The floor and strike prices for the 2021-Season QSL April Guaranteed Floor Pool have now been established at the following levels:

FLOOR PRICE = \$457/tonne actual gross

This is the absolute minimum gross price return of the pool

STRIKE PRICE = \$467/tonne actual gross

A daily participation rate of 50% applies when the market exceeds this strike price

[For more information about this pool, please click here.](#)

Don't miss next week's video market update. Click on the above image to be taken directly to our Facebook Page.
