

Haughton River Floodplain Upgrade Project

Temporary closure of Shirbourne Road to all traffic Monday 21 June 2021

The Infrastructure Group (TIG) will temporarily close the Bruce Highway intersection with Shirbourne Road (westbound, between the Highway and Garrone Road) from 8am to 6pm on Monday 21 June 2021, weather and conditions permitting.

This closure will enable reconnection of the Ergon point of supply at Shirbourne Road.

All inbound and outbound traffic will need to use the existing detour along Garonne Road and Woodstock-Giru Road being used by Shirbourne Road traffic to access the Bruce Highway.

The existing closure of Shirbourne Road to eastbound traffic (travel to and from Giru) also remains in place. A map overleaf shows these closures.

Thank you for your cooperation

TIG and the Department of Transport and Main Roads thank everyone for their patience and cooperation during these essential works.
