- **Early-Start Actively Managed Pool:** The 2022-Season Early-Start Actively Managed Pool is now accepting nominations. This is a QSL-managed pool that prices 2022-Season sugar in the same manner as the Actively Managed Pool, but over a longer pricing window. Nominations will close 31 October 2021, with the pool's pricing window commencing from the first trading day after this date. [For more information on the Early-Start Actively Managed Pool, please click here.](#)
- **Rolling reminder:** Growers using the 2021-Season Target Price Contract are reminded that any unpriced tonnage in this product remaining after 20 September 2021 will be automatically rolled to the next contract. This roll may incur a cost in addition to the previous roll cost of \$1.46 already applied for the July/October 2021 roll. Growers using the 2021-Season Individual Futures Contract and Self-Managed Harvest Contract are reminded they have until 15 September 2021 to price or roll any nominated tonnage in the October 2021 contract. Rolling is optional for these two products and can be done at any time prior to this deadline via your QSL Direct account. Roll costs may also apply. For an estimate of potential roll costs for the products mentioned above, please see our latest Indicative ICE 11 Prices table in the Daily Price email or [click here](#).
- **Video Sugar Market Update:** Don't miss our next video market update, scheduled for Wednesday 15 September from 4pm with QSL Senior Manager, Marketing & Logistics Andrew Phipps. These 5-minute snapshots provide a great overview of the key themes affecting sugar prices for Australian producers, and are available to watch any time via our [Facebook page](#).
- **Transaction Summaries:** QSL Direct growers are reminded that they can find a handy summary of all their QSL transactions for the last financial year within the Financial Reports section of their QSL Direct accounts. Quarterly and Annual Grower Account Statements are provided for each season you have marketed with QSL.
