

TAKE **MORE** CONTROL OVER YOUR **FINAL** PRICE

We've made some changes to our pricing mechanisms to give you more control over your final sugar price.

This enables you to capture potentially attractive future prices, as far ahead as 2024, and take advantage of the rallying sugar market.

Nominating with Wilmar for three years gives you more room to

move and greater ability to capture good future prices.

How you can take control

- >> You can now set orders in \$5 increments when using our Target or GMPRS pricing mechanisms.
- >> You can price up to 70% of your nominated sugar tonnes for the 2022, 2023 and 2024 forward seasons.
