4. QSL Information Brief – 12th October 2021 - Posted – 12/10/21

Please find below a short news & information brief from QSL that you may wish to use in your communications to your members.

- **Annual Report now available:** QSL has released its Annual Report for the 2020/2021 financial year. Click here to read the full QSL Annual Report.

- **Advance rate increase:** QSL's Standard 2021-Season Advance Rate will increase by 5% to 70% from 13 October. Click here to see the full 2021-Season Indicative Advances schedule.

- **Changes to farm arrangements:** Planning to buy, sell or lease a farm, or changing your existing business arrangements? QSL Direct growers undertaking such changes need to submit our "Farm Sale/Lease Information Form" to capture any associated changes to payments or their QSL account.

  This form is not a contract – it simply initiates the documentation process by gathering basic information about the transaction to enable QSL to prepare the relevant Deed of Acknowledgement and/or Deed of Novation, to implement associated pricing transfers. This can be done before, during or after the transaction occurs, but ideally, before the transaction occurs.
  For further information or to commence the process, please contact the QSL Direct team on 1800 870 756. Click here for the Farm Transfer Information Form

- **Video Sugar Market Update:** Don't miss our next video market update, scheduled for Wednesday 13 October from 4pm with QSL Senior Manager Treasury & Risk Matt Page. These 5-minute snapshots provide a great overview of the key themes affecting sugar prices for Australian producers, and are available to watch any time via our Facebook page.

- **Actively Managed Pools:** Nominations are currently being accepted in the following QSL-managed pools:

  >2022 Early -Start Actively Managed Pool
  >2023 2-Season Actively Managed Pool
  >2024 3-Season Actively Managed Pool
  Nominations close 31 October 2021. For details regarding these pools, please read our full Pricing Pool Terms, available form your local QSL team or by clicking here.

If members have any questions in regard to the above, please don't hesitate to get in contact with:

5. QFF 10 Things to Know – 11th October 2021 – Posted – 11/10/21

HERE'S 10 THINGS TO KNOW.

FROM QFF QUEENSLAND FARMERS' FEDERATION

1.

Queensland farmers stand to benefit from actions that reduce carbon emissions. But it is only with strong leadership and a clear pathway that we can maximise this opportunity and ensure a bright future for the environment and the state's agriculture sector. Read QFF's Queensland Country Life column HERE and hear more from QFF CEO Dr Georgina Davis' interview with ABC Rural for the Queensland Country Hour HERE.

2.

Tell us about your electricity tariffs and we'll give you a $40 gift voucher! Queensland and New South Wales farmers are encouraged to participate in a QFF, University of Queensland and Energy Consumers Australia research project aiming to better understand how you consider and choose electricity tariffs for your agricultural operations. Get involved HERE.

3.

Join University of Queensland Masters in Energy Studies student Mathew Thomas and the QFF Energy Savers team for an online workshop at 12.30pm on Wednesday, 13 October about hydrogen production and use on farm, and the opportunities and challenges this may present for irrigators. Register HERE.

4.

Calling all Tablelands small and medium agribusinesses! Join QFF and Jobs Queensland at Atherton on Tuesday, 12 October for an Agriculture Workforce Plan industry consultation session. Register now HERE. Agribusinesses and farmers are encouraged to complete an online survey about workforce planning. Have your say HERE.

5.

The Queensland sugarcane industry recently crossed the half-way mark of the 2021 harvest. While some districts have cut more than 50 per cent and some are yet to reach that point, the industry is about 14.6 million tonnes into a crop estimate of 29.4 million tonnes. Read more from QFF industry member CANEGROWERS HERE.

6.

The cotton industry celebrated World Cotton Day last week, and Australian cotton farmers are optimistic about the future with good demand, as buyers increase their support amid the emergence of new international markets. Read more from Cotton Australia HERE.

7.

Farmers interested in agritourism are encouraged to attend a Department of Agriculture and Fisheries workshop to help develop the idea and put in place a plan to make it happen. Take a two-minute self-assessment survey to make sure you're workshop ready and register HERE.

8.

Dial Before You Dig has finished its digital transformation, launching a new delivery platform 'DBYD NextGen referral service', which includes real-time dig and enquiry activity dashboards. More details HERE.

9.

Applications are now open for postgraduate Agricultural Science, Agribusiness, Animal Science, and Food Science and Technology programs at the University of Queensland. Most programs are available in external delivery mode and are the perfect opportunity to upgrade your academic and professional skills from anywhere in Australia. Contact UQ Future Students to discuss your study options.

10.

Australian Institute of Company Directors scholarships are available to support emerging and experienced female directors in regional, rural and remote Australia. The first round of the program is offering 30 full-fee scholarships to undertake the Company Directors Course and 24 full-fee scholarships to undertake the Foundations of Directorship program. Details HERE.

Q183	14	15.03			

Comments:

Throughput this week just under 370,000 tonnes. This was above budget, despite an extended stop at Inkerman Mill to complete cleaning and maintenance, as well as stops to complete cleans at Kalamia and Invicta mills.

Pioneer Mill achieved its second highest throughput for the year.

The average weekly CCS was 14.66. Despite fine weather conditions, CCS continues to trend below the weekly budget.

The highest CCS sample was 17.3 from a rake of Q183 second ratoon in the Pioneer Mill area.

Haughton River Floodplain Upgrade Project

Woodstock Giru Road Closure

Wednesday 13 October to mid-November 2021

Two milestones of the Haughton River Floodplain Upgrade project will be reached progressively from Monday 11 October, with the Bruce Highway on and off ramps to Shirbourne Road opening to traffic (providing access to and from Giru), followed by the on and off ramps to Hodel Road.

Once traffic is using these new on and off ramps, **Woodstock Giru Road on both sides of the Bruce Highway will be closed to traffic for five weeks.**

This closure, which will allow for construction of a culvert across the Bruce Highway at the intersection with Woodstock Giru Road, will be in place from:

Wednesday 13 October 2021 until mid-November

(weather and construction conditions permitting)

While the Shirbourne Road on and off ramps will open to traffic next week, there are works yet to be completed on the road under the highway overpass; meaning there will continue to be **no direct access along Shirbourne Road under the Bruce Highway.**

Per the diagram overleaf, two detours will be in place during the Woodstock Giru Road closure:

- via Link Road for access between the Bruce Highway and Woodstock and using Garrone Road for access to Shirbourne Road/Shirbourne
- via Shirbourne Road for access between the Bruce Highway and Giru.

Woodstock Giru Road property accesses will be maintained, via the detours.

Traffic controllers will be onsite during construction hours to direct traffic. Advance warning signs will also be in place on the approaches to the work area, notifying road users of the changed conditions.

Road users are asked to drive carefully; follow the direction of signage and traffic controllers; and adhere to reduced speed limits.

School bus services and postal deliveries

School bus and postal delivery services will continue as normal, including in the closure area, via the detours. Bus pickup and drop off times may vary; please refer to TransNorth for more details.

Waste collection

Burdekin Shire Council have advised that waste collections will continue as usual from houses along Woodstock Giru Road during the detour. If your bins are placed roadside but not emptied on the normal collection day, please contact the project team using the details below to arrange an alternative collection.

Thank you for your patience and cooperation during these essential works.

Piralko Road access

Works are continuing to upgrade the Bruce Highway intersection with Piralko Road. While these works are ongoing, Piralko Road traffic will need to continue using the side-track opposite Link Road to travel toward Piralko Road.

The Bruce Highway and Piralko Road intersection is expected to re-open to direct traffic in late October 2021.

9. Sugarcane Industry Roadmap – Posted – 14/10/21

Media Release

12 October 2021

Partnership to develop sugarcane industry roadmap

Charting a prosperous future for the industry and regional communities

Sugarcane industry peak bodies and the Cooperative Research Centre for Developing Northern Australia (CRCNA) are partnering to develop the first whole-of-industry shared vision and roadmap to 2040.

The **Sugarcane Industry Roadmap** will adopt a best-for-industry view to identify significant opportunities to drive sustainability, growth and prosperity of the industry and regional communities into the future.

CRCNA Chief Executive Officer Anne Stünzner said the roadmap will identify the future forces likely to impact the industry, establish agreed priorities and provide insight into the skills, resources, innovation and infrastructure needed for future success.

“For more than 100 years, the sugarcane industry has been a major economic and social contributor to regional communities across Queensland and northern New South Wales and has demonstrated a thirst for innovation and new technology,” Ms Stünzner said.

She said industry organisations have recognised the need to complement and enhance the traditional raw sugar production model to improve productivity and diversify revenue sources.

“While the industry faces economic, environmental and social challenges, there is significant opportunity to expand to become a multi-product, ‘sugar plus’ industry with potential for alternate markets such as biofuels and bioplastics,” Ms Stünzner said.

The roadmap initiative has the joint backing of five sugarcane industry organisations – Sugar Research Australia, CANEGROWERS, the Australian Sugar Milling Council, AgForce and the

Australian Cane Farmers Association – with funding also provided by the CRCNA and the Queensland Department of Agriculture and Fisheries.

Sugar Research Australia Chief Executive Officer Roslyn Baker said the project will involve extensive engagement across the sugarcane industry value chain to co-develop a plan for the future.

“The roadmap will address both the immediate enhancements and improvements that can be made for a stronger industry, as well as longer-term opportunities to enter new markets, to diversify into new crops and products, and alternative uses for core industry assets,” Ms Baker said.

She said the roadmap will support the industry to bring to life a vision relevant to all sugarcane regions while cultivating greater agility to embrace local opportunities.

“This initiative is about generational change and putting industry in the driver’s seat to build an exciting and prosperous future,” Ms Baker said.

Stakeholder engagement sessions are underway. The roadmap is due to be finalised in early 2022.

Sugar Weekly Report

- **NY Flat Price:** March contract closed the week at 20.4 cts/lb, up from 20.06 cts/lb a week earlier.
- **NY Spreads:** March/May spread weakened slightly during the week, closing at 48 points inverse Friday.
- **London Market:** March/March white premium was lost a couple of dollars, closing Friday at $68.2/mt, May/May white premium closed at $86.8/mt, down from $89.3/mt a week earlier.

- **COT Report:** Specs were 209k lots net-long, 2.5k lots higher than a week earlier. Commercials cut their net-shorts by 1k lot and held 398k lots of net-shorts. Index funds sold net 3.4k lots and were holding 189k lots of net-longs.

BULL

- CS Brazil has experienced well above average rains in October and this will impact the end of the crop.
- Indian exports in 2021/22 season will drop significantly if prices drop below 19 cts/lb.
- An increase in energy prices will support commodities prices.

BEAR

- Smuggling demand is struggling due to the increased and stricter borders control across regions due to Covid-19.
- Increasing freight costs continue to have an effect on demand - consumers are not building stocks, preferring to only buy what is needed.

Sugar Weekly Report

CS Brazil: Weather Update

- With the current forecast, the rains in October are going to be the highest over the past 5 years.
- Such heavy rains could be a relief for the next seasons cane.
- At the same time, heavy rains during October could mean a lower ATR. As we are coming to the tail of the crop some mills could decide to close earlier as it's less costly to stop, instead of crushing low quality cane (low sucrose).
- By the middle of September mills crushed 431 million mt of cane, down 30 million mt year on year; sugar production reached 26.8 million mt, 2.4 million mt down year on year.
- Last year there was still 145 million mt of cane to be crushed, this year we expect around 80 million mt, still to be crushed, but with such heavy rains it might be less.

- Russian factories processed 10.8 million mt of beets, slightly lower than last season.
- Sugar production was at 1.4 million mt, 240k mt down year on year.
- Extraction rate continued to be disappointing – 12.9% vs 14.6% last season.
