Q208	16	14.63	Q183	12	15.03
KQ228	14	14.04			

#### Comments:

Throughput this week just under 365,000 tonnes. This was above budget, despite significant stops at Inkerman, Invicta and Pioneer mills through the week.

The Burdekin mills have now processed more than 6M tonnes for the season to date, which represents more than 75 per cent of the total estimated crop.

With current mill performance and no wet weather, crushing should wrap up in the second and third weeks of November.

The average weekly CCS was 14.45 which continues to trend below budget.

The highest CCS sample was 17.6 from a rake of Q183 second ratoon in the Invicta Mill area.
