# HERE'S 10 THINGS TO KNOW.

FROM  QUEENSLAND FARMERS' FEDERATION

---

1.

It is with a heavy heart, that I wish to advise I am leaving QFF for new pastures. It has been my honour to work as a member of the QFF team for the past five years. The excellence, expertise, and dedication they demonstrate every day is beyond comparison. Read outgoing QFF CEO Dr Georgina's resignation announcement [HERE](#).

2.

QFF has welcomed state government funding to help farmers undertake projects to protect and enhance the conservation value of the nature refuges on their properties. For more information about the [Nature Refuge Landholder Grants Program](#) and to apply, click [HERE](#).

3.

QFF has welcomed reports from the [GasFields Commission Queensland](#) and the [Office of Groundwater Impact Assessment](#) highlighting ongoing coexistence challenges for the state's agriculture and resources sectors, but is still mining for answers to some critical questions. Read the media statement [HERE](#).

# 4.

With an increase in resource activity in recent years, and demands on agriculture increasing, agriculture land must be treated as the precious and irreplaceable commodity that it is, as major resources projects are considered, approved and developed. Read QFF's [Queensland Country Life](#) column [HERE](#).

# 5.

Save the date! On Thursday, 11 November, QFF industry member [Growcom](#) will host an in-person and livestreamed Workplace Essentials seminar covering a range of topics, including succession planning, investing on and off farm, managing debt, as well as building leadership skills and creating teams. Register [HERE](#).

# 6.

A dairy near Ravenshoe, on the Atherton Tablelands, has implemented an irrigation energy management opportunity from the energy audit report they received through the QFF Energy Savers Plus Program Extension. Read more from the [Queensland Dairyfarmers' Organisation](#) [HERE](#).

# 7.

According to the latest [ABARES](#) report, 70% of farmers are reducing reliance on pesticides and optimising fertiliser use, 64% of farmers are improving water retention and 58% of farms have a source of off farm income. Read more about how farmers are using sustainable land management practices to improve the natural resource base and drought resilience [HERE](#).

# 8.

November is Queensland AgTech Month - a celebration of the ever-growing AgTech community of big thinkers, forward planners and invested innovators who call Queensland home. Attend an event and get connected [HERE](#).

9.

Is Australia prepared to respond to a significant biosecurity pest or disease outbreak like African Swine Fever? Learn how the [Department of Agriculture, Water and the Environment](#) is meeting these challenges at the 2021 National Biosecurity Forum. Register [HERE](#).

10.

[Healthy Land and Water](#) is hosting free Drought and Climate Adaptation workshops in Boonah, Gatton, Toogoolawah and Lowood this month. The workshops will provide a wide range of information, practical advice, and tools to help inform decision making and planning. Register [HERE](#).

## 5. QSL Information Brief – Posted – 8/11/21

Please find below a short news & information brief from QSL that you may wish to use in your communications to your members.

- **2021 Season Accelerated Advances:** Keen to maximise your Advances payments prior to Christmas? QSL's Accelerated Advances option increases your Advance rate to 90% in December for tonnage priced using our Guaranteed Floor and/or grower-managed pricing options. Nominations close 30 November 2021 and can be made via the QSL App or QSL Direct Portal. [Click here for more information.](#)
- **BAS reporting in Wilmar milling districts:** Growers in Wilmar milling districts completing their BAS are reminded that QSL now applies 10% GST to sugar payments. You can find more information regarding the GST changes and what they mean for your bookwork by [clicking here](#), or by contacting your local QSL team. This [video link](#) provides a quick guide to where you can find this important GST information on your QSL paperwork.
- **Have you finished harvesting your 2021 crop?** If you are a grower who has either cut out or will cut out before your local Mill's crushing conclusion date, please ensure you notify your local QSL team. This helps us with your payments and planning. It is also important for growers in our Self-Managed Harvest Contract who may be eligible to price their production buffer.
- **Grower Pricing Update:** The much-anticipated UNICA report for the second half of September came in slightly above market expectations, but accumulated season figures are still well behind last year. During the two-week reporting period, 35.3 million tonnes of cane were harvested and 2.2 million tonnes of sugar produced, down 12.57% and 21.52% respectively compared to the same period last year. [Click here to read our latest Grower Pricing Update.](#)
- **Market Update Video:** Don't miss our next video market update, scheduled for Wednesday 10 November from 4pm with QSL Marketing and Risk Officer Elliot Apel. These 5-minute snapshots provide a great overview of the key themes affecting sugar prices for Australian producers, and are available to watch any time via our [Facebook page](#).

<p>Throughput this week was just over 372,000 tonnes, which exceeded budget.</p> <p>The Burdekin mills have now processed about 7.5M tonnes, which represents more than 95 per cent of the total estimated crop.</p> <p>Based on current crop estimates, forecast factory throughputs and no further rain disruptions, harvesting should be completed between 9 and 12 November on the north bank and by 21 November on the south bank.</p> <p>The average weekly CCS continues to trend below budget at 14.41. The CCS dropped to this level following a mid-season rain event and has remained steady.</p> <p>The highest CCS sample was 17.3 from a rake of Q183 third ratoon in the Pioneer Mill area.</p> <p>As the season winds up over the next fortnight, motorists are reminded to approach all level crossings with caution and always give way to cane trains.</p> <p>Maintenance vehicles will continue to utilise the track after the season ends, so caution is still required around our cane rail network.</p>

## 8. Wilmar Burdekin Grower Update - Kalamia Mill – Posted 10/11/21

Wednesday, 10 November 2021

Kalamia Mill is the first of Wilmar's eight mills to finish the 2021 season.

The last bin of cane was crushed at **7.21am today**.

We processed about **1.55 million tonnes of cane** this year, with a provisional season CCS of **14.13 units**.

I'd like to acknowledge Kalamia Mill's Operations Team and the Cane Supply and Transport team for their hard work in processing this year's crop.

On behalf of the team at Wilmar Sugar, thank you for your cooperation during the 2021 season.

Best regards

**PAUL TURNBULL**

Burdekin Regional Operations Manager

## **Media release**

**Minister for Transport and Main Roads**

The Honourable Mark Bailey

### **Haughton River Floodplain upgrade almost complete**

The \$500 million Haughton River Floodplain upgrade is surging towards completion, following the final traffic switch earlier this year.

Deputy Prime Minister and Minister for Infrastructure, Transport and Regional Development Barnaby Joyce said this project is another example of George Christensen’s determination to deliver for people of this region, to make sure the infrastructure they need and deserve is funded and delivered.

“Thanks to projects like this, the Australian Government’s record \$110 billion infrastructure investment plan is helping to connect communities and improve safety, while creating jobs and supporting our economic recovery,” the Deputy Prime Minister said.

“The Australian Government is investing over \$10 billion in a safer, smoother and more reliable Bruce Highway. This will benefit Queenslanders, from Brisbane to Cairns, on this key north-south route.”

Federal Member for Dawson George Christensen said the project is due to be complete later this year.

“North Queenslanders are all too familiar with flooding closing the Bruce Highway over the Reed Beds area, with this section of highway typically closing every couple of years during the wet season, forcing transport operators and the travelling public to wait for waters to recede,” Mr Christensen said.

“Traffic across the national network is now using a safer, more flood resilient crossing of the Reed Beds area.

“The Australian Government, in conjunction with the Queensland Government, has resolved this issue with the existing low-lying road replaced with a bridge, which is much more resilient to flooding.

“The Bruce Highway alignment across the Reed Beds was also reconfigured to improve safety.

“In addition to the previous traffic switches as part of this half-billion dollar upgrade, today’s switch means traffic is now using all 13.5 kilometres of new or upgraded highway.”

Queensland Minister for Transport and Main Roads Mark Bailey said the project built on other upgrades underway on the Bruce Highway.

“The Queensland Government is investing a record \$17.8 billion in regional roads and transport over the next four years, as well as more than 100 projects on the Bruce Highway in the pipeline,” Mr Bailey said.

“As a key connector for locals in the regions, and the backbone of Queensland’s freight industry, delivering upgrades on the Bruce Highway is a priority.

“Right now, a \$481 million upgrade is underway on the Bruce Highway from Edmonton to Gordonvale in Cairns, which is supporting 466 jobs.

“And, we have \$50 million in safety upgrades being delivered between Mackay and Proserpine.

“At Giru, the focus moving forward will be on completing local connection roads and demolishing existing bridges and road before final completion of the project.

“Locals will also notice the recently completed highway on and off ramps to Hodel Road and Shirbourne Road, which reinstate access to the area.”

Mr Bailey said the project continues to support local jobs and industries.

“The project has supported an average of 544 jobs over the project lifecycle,” he said.

State Member for Thuringowa Aaron Harper said the final stage of the project would see the intersection of Woodstock-Giru Road and the Bruce completed.

“Drivers have now been using the new bridge for about a month and are already reaping the benefits of a smoother, safer drive,” Mr Harper said.

“It’s great to see big projects like this supporting local jobs and industries – providing training opportunities for the next generation.

“This is a big win for locals now and well into the future.”

The \$514.34 million Houghton River Floodplain Upgrade project is jointly funded by the Australian and Queensland governments on an 80:20 basis, representing commitments of \$411.47 million and \$102.87 million, respectively.

The project is due to be completed later this year.
