## 2. SRA E-Newsletter – Friday, 12<sup>th</sup> November 2021 - Posted 12/11/21

In this eNewsletter, we bring you updates from two projects in the Central Region, plus let you know about two corrections to make to your copy of the Nutrition Manual.

### Guess what is in this box

Is it an animal trap, insect monitoring or a subdivision marker? No, it's run-off monitoring equipment used in the Mackay Whitsunday Cane to Creek project.

[Find out more](#) about the latest activities on this project.

### Mackay grower shares experience in implementing improved practices

The Soil Health Project- Central has been a partnership project delivered by Farmacist over the past two years. It is supported by the Department of Agriculture, Water and the Environment through funding from Australian Government's National Landcare Program, SRA, Farmacist and local project partners.

The project conducted a series of soil, biomass and root comparison tests between sites to determine how the practices influenced soil health at the sites.

In this video, Mackay sugarcane grower, Sam Deguara shares his family's 22 years of experience in implementing improved farming practices and what the benefits have been in participating in the Soil Health Project -Central.

[Watch the video here.](#)

## Do you have a copy of the 2018 SRA Australian Sugarcane Nutrition Manual?

If you do, there is another minor correction to be made on page 60 and one for page 27.

More information is available at the links below.

The details for the correction to Table 12 are [here](#).

The details for the correction to Table 32 are [here](#).

## Grants for landholders with nature refuge projects

Nature Refuge Landholder Grants (NRLG) provide financial assistance to nature refuge landholders. The grants support landholders to undertake projects that will protect and enhance the significant natural values of their nature refuge.

Grant applications close 6 December 2021.

## Making it easier to find pages on the internet

Just like your favourite tool in the shed, you might have some favourite internet pages that you want to find quickly and easily.

For example, maybe you would like simpler access to the [SIX EASY STEPS TOOLBOX](#). (*The SIX EASY STEPS Toolbox contains tools and information to support on-farm nutrient management decisions. This includes guidelines for leaf sampling and conducting on-farm evaluations of different practices, useful field tools and management considerations for specific circumstances.*)

One simple way to do that is to create a favourite. This adds the link to a tab on a bar across the top of your screen when you have the internet open. Then you only need to click on the tab to open your favourite page.

If you use Microsoft Edge as your internet browser, follow these instructions to set up favourites: [Add a site to my favorites in Microsoft Edge](#)

If you use an alternative browser, do an internet search for the relevant instructions.

## 5. Wilmar Burdekin Grower Update – Pioneer Mill – Posted – 15/11/21

[View this email in your browser](#)

**Saturday, 13 November 2021**

Pioneer Mill crushed out for the 2021 season just after midnight.

*The last bin goes through the tippler for Pioneer Mill's 2021 season.*

*Process Improvement Engineer Sean Anderton and Operations Coordinator Dean McNamara saw the last bin tipped.*

The last bin was tipped at **11.58 last night**, and the last cane was crushed at **12.03am today**.

We processed about **1.63 million tonnes of cane** this year, with a provisional season CCS of **14.6 units**.

I'd like to acknowledge Pioneer Mill's Operations Team and the Cane Supply and Transport team for their hard work in processing this year's crop.

On behalf of the team at Wilmar Sugar, thank you for your cooperation during the 2021 season.

Best regards

**PAUL TURNBULL**

Burdekin Regional Operations Manager

## **7. DAF – Media Release – Grants Available – Posted – 16/11/21**

### **National Soil Carbon Innovation Challenge - Feasibility Study Grants**

The Minister for Industry, Energy and Emissions Reduction has [launched](#) Stage 1 of the \$50 million National Soil Carbon Innovation Challenge, which aims to fast-track the development of lower-cost, accurate technical approaches to measure soil carbon. The Challenge will have multiple competitive grant rounds, to support feasibility studies, proof of concept testing, and validation and deployment through on-farm trials.

Stage 1 of the Challenge provides grants of up to \$100,000 to applicants to conduct three-month feasibility studies into new technologies. The minimum grant amount is \$50,000, with \$1 million available for this grant opportunity.

Stage 2 will be opened in the coming months, with \$49 million in grants available to support proof of concept activities and validation and deployment of proposed technologies, until June 2024.

Applications open **10 November 2021** and close at **4pm QLD AEST on Friday, 10 December 2021**. Information about program, including the Stage 1 grant opportunity guidelines and sample application form, is available at <https://business.gov.au/grants-and-programs/soil-carbon-measurement-innovation-challenge>

## 8. QSL Information Brief – Posted – 15/11/21

- **Non-delivery options:** Worried about delivering your estimated sugar this season? QSL growers with committed pricing have multiple options to address in-season production reductions, including:

- Reallocating your Harvest Pool tonnage to meet your committed sugar pricing
- Shifting tonnage between ABNs
- Rolling pricing forward to the next season
- Unwinding pricing

Should you come up short, you have an obligation to pay QSL any wash-out costs associated with your shortfall under the Pricing Pool Terms. But rest assured that we will work with you to find the lowest-cost option available within the current market for your particular pricing position, and where possible, any wash-out costs will be factored into your remaining Advances payments. [Contact your local QSL team for more information.](#)

- **Burdekin Christmas Party:**

3 December 2021 5pm to 9pm

Burdekin Rugby Club, Casalegno Field

*RSVP to Kristen 0438 470 235 by November 30*

- **Have you finished harvesting your 2021 crop?** If you are a grower who has either cut out or will cut out before your local Mill's crushing conclusion date, please ensure you notify your local QSL team. This helps us with your payments and planning. It is also important for growers in our Self-Managed Harvest Contract who may be eligible to price their production buffer.
- **Advance rate increase:** The QSL Standard Advance Rate will increase to 72.5% from 17 November 2021. QSL's Accelerated Advances option is also available for the 2021 Season and increases your Advance rate to 90% in December for tonnage priced using our Guaranteed Floor and/or grower-managed pricing options. Nominations for Accelerated Advances close 30 November 2021 and can be made via the QSL App or QSL Direct Portal. [Click here for more information.](#)
- **BAS reporting in Wilmar milling districts:** Growers in Wilmar milling districts completing their BAS are reminded that QSL now applies 10% GST to sugar payments. You can find more information regarding the GST changes and what they mean for your bookwork by [clicking here](#), or by contacting your local QSL team. This [video link](#) provides a quick guide to where you can find this important GST information on your QSL paperwork.
- **Market Update Video:** [Click here](#) to watch our latest video market update with QSL Marketing and Risk Officer Elliott Apel. This short video provides a great overview of the key themes currently affecting sugar prices for Australian producers.

<b>Comments:</b>					
Throughput this week was just under 240,000 tonnes, with the three north bank mills crushing out.					
Kalamia finished first on 9 November with a season total of 1.55M tonnes. Invicta finished next on 10 November with a season throughput of 3.05M tonnes, and Pioneer finished on 12 November with a total throughput of 1.62M tonnes. Inkerman is expected to finish by 24 November.					
A band of storms swept through the region on Friday evening dumping 20-50mm of rain, which impacted harvesting over the weekend.					
The average weekly CCS continues to trend below budget at 14.39. The CCS dropped to this level following the mid-season rain event and has remained steady.					
The highest CCS sample was 17.2 from a rake of Q183 third ratoon in the Inkerman Mill area.					
Even with the north bank mills finished, motorists are reminded to approach all level crossings with caution and always give way to cane trains and track maintenance vehicles.
