Advances rate increase

The Standard QSL Advances rate moved to 77.5% this week, an increase of 5%. Those growers who nominated to receive Accelerated Advances in the 2021 Season have now moved to an Advances rate of 90% for their filled grower-managed pricing and/or Guaranteed Floor tonnage.

Non-delivery options

QSL offers its growers a number of options to help address over-commitment, including washing out positions or rolling pricing forward into the next season.

QSL growers who have failed to deliver their committed sugar should contact their local QSL team as soon as possible to help find the lowest-cost option available within the current market for their particular pricing position.

On a roll in the QSL App

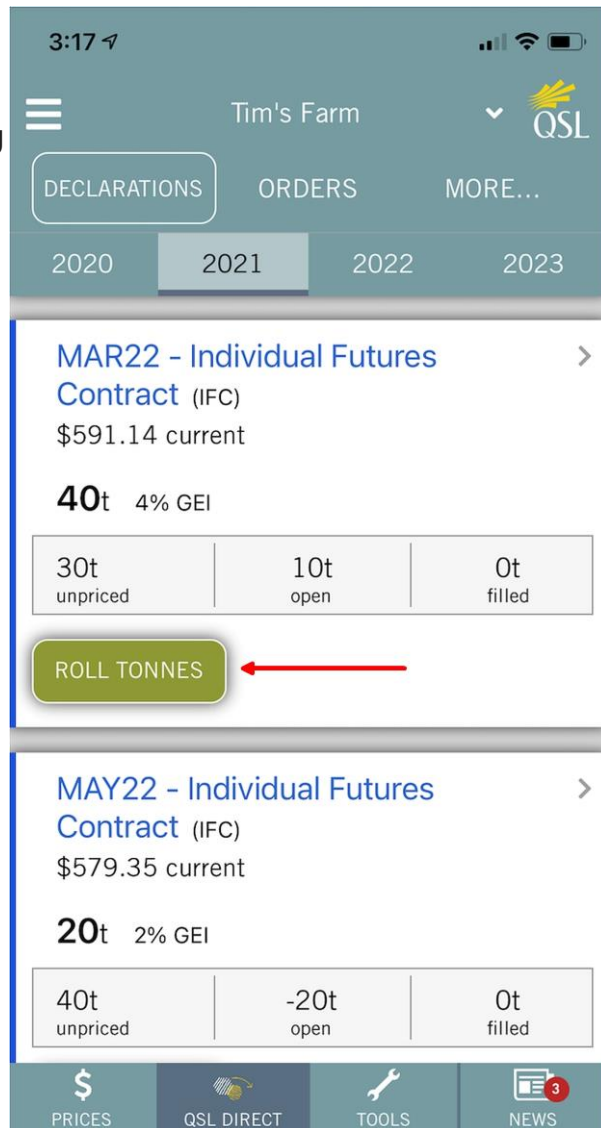

Growers using QSL's Individual Futures Contract and Self-Managed Harvest Contract pricing options can now roll any eligible tonnage on demand by using the QSL App.

Rolling extends the time available to achieve pricing in these products to as late as mid-April in the year after the harvest, providing unmatched flexibility for up to 98% of your QSL tonnage.

You can elect to roll unpriced tonnage in the prompt contract on any working day prior to the Pricing Completion Date for that contract. To do so, just log on to your QSL Direct account via the QSL App, open the relevant order, and then hit the '**ROLL TONNES**' button, as shown at right.

There is no fee to roll tonnage, however you will incur an adjustment representing the cost associated with re-establishing your positions in the new contract.

You can find an estimate of this roll adjustment on the QSL website and our Daily Price email, or by contacting your local QSL team.
