# KCGO MEMBER DISCOUNTED HEALTH INSURANCE OFFER

## Corporate Health Insurance

Working together with Kalamia Cane Growers, we are excited to offer you a healthy corporate discount on your health insurance under the Kalamia Cane Growers Corporate Health Plan. Experience the Queensland Country difference with:

- ✓ **Healthy savings**  
A **6% discount\*** on your annual policy premium.
- ✓ **A dedicated Corporate Partnership Manager**  
Kim Anderson, your dedicated Corporate Partnership Manager will be happy to help you with any questions you may have.
- ✓ **Easy to understand products**  
Our products are easy to understand and provide our Members with great value for money and peace of mind.
- ✓ **Excellent service**  
We're here to help. Our commitment to helping our Members is second to none with fast and friendly service both face to face or over the phone.
- ✓ **National Coverage**  
We provide coverage anywhere in Australia, giving you peace of mind wherever you work, live or play.
- ✓ **95% Member satisfaction rating\***
- ✓ **Generous benefits**  
Our benefits help promote a healthy lifestyle and based on direct Member feedback, are regularly reviewed to ensure they remain competitive.
- ✓ **Easy claiming**  
Claim easily anywhere, anytime through our Mobile App by simply uploading a photo of your receipt or via our Online Member Services portal.

If you have any questions or for more information contact your dedicated Corporate Partnership Manager, Kim today!

**Queensland  
Country  
Health Fund**

## 1. QSL Information Update – 19<sup>th</sup> August 2022 – Posted – 19/8/22

19 August 2022

[View this email in your browser](#)

---

### This week's adjustment

QSL processed an adjustment for Wilmar growers yesterday incorporating a CCS change and updated QSL Advance payment values.

Growers are reminded that where this adjustment has resulted in a negative value, this sum will be automatically carried forward and applied to your next scheduled QSL sugar payment. The Recipient Created Adjustment Note (RCAN) detailing the adjustment has been issued for record-keeping/taxation purposes only and is not a request for payment.

As a result of the adjustment above, this week's sugar payments were made in a separate transaction this morning. We apologise for any inconvenience this delay may have caused.

Should you have any queries regarding this adjustment, please contact your local QSL team or call 1800 870 756.

***The QSL Direct Team***

## 2. SRA ENewsletter – Posted – 19/8/22

[Click here](#) to view this message in a browser window.

In National Science Week this week, SRA celebrates our scientists and researchers and talks to students of all ages about exciting careers in the sugar industry.

### Cane Matters is out this week

The latest edition of SRA's magazine *Cane Matters* is on the way.

In the winter bumper edition we outline the work undertaken for the first shared industry vision and roadmap: *Sugar Plus - fuelling the future of food, energy and fabrications*.

We also feature coverage of the return of SRA's popular field days including interviews with the researchers who pleased the crowds with their presentations.

[Read more](#)

## **PBR days in Mackay**

*In National Science Week this week SRA pays tribute to all our scientists and researchers, including our variety development staff.*

A team of SRA staff work together every year to describe the new sugarcane varieties that have come through the SRA Breeding Program. The information is used to apply for Plant Breeder's Rights (PBR) protection for the new varieties.

"This year's PBR activities were held in Mackay in July, and five new varieties were described in combination with 11 other comparator varieties growing in the same PBR trial," said Tissue Culture Leader, Variety Development, Clair Bolton.

## **Southern Weed Management Workshops create interest**

With growers starting to think about pre-emergent weed control, SRA Weed Scientist, Emilie Fillols' recent Southern Weed Management workshops were well attended. Growers gave the workshops a score of 9/10 on whether they felt they had learnt valuable information from the workshop. "Hold more workshops," was one comment.

The three-hour workshops looked at a variety of weed species and the factors which influence their control, including the life cycle and habits of the particular weed, the type of herbicide used, the timing of application, the soil type, the presence of a trash blanket, the farming system and the method of incorporation e.g. mechanical or rain.

"Unlike knockdown herbicides that display visual effects on weed foliage, the action of pre-emergent herbicides is underground, so you can't see what's happening (or not happening). Knowing the factors that impact on pre-emergence herbicides' efficacy helps the grower achieve greater success every time," said Emilie.

*Above: Rocky Point growers investigate a weed identification app available on a smartphone, during the workshop.*

### **SIPP visit for SRA Woodford**

Fifteen Grade 10 students and two teachers from Caloundra State High School visited SRA Woodford Pathology Research Station this week.

Students were shown the laboratory to see nematode and smut research. They were intrigued to see live smut and nematodes under the microscope. They were also taken out to see sugar cane growing in the field and the diseases that can afflict the crop.

The tour was hosted by Biosecurity and Disease Screening Manager, Shamsul Buiyan and Field Operations Leader Andrew Greet (*above with students in the cane field*), as part of the School to Industry Partnership Program (SIPP) in the Sunshine Coast area aimed at increasing students' and educators' awareness of the variety of careers in agriculture.

## **Mackay students get EXCITED!**

"You'll find an exciting job in agriculture that suits your interests." That's what organisers of the EXCITED 4 Careers in Agriculture national project want children from kindergarten to Grade 10 to know.

A roadshow for the project started in the Mackay district on 9 August with a visit to Homebush State School. SRA District Manager Central Dylan Wedel (*above*) gave a presentation to primary school students showing the jobs involved in making sugar. A teacher-industry networking evening at SRA Mackay followed and visits to a number of other schools in the region.

"The days gave students an insight into what careers are available in the sugar industry and hopefully they will consider this in the years ahead," said Dylan.

*Funded by the Australian Government's National Careers Institute, EXCITED for Agriculture is a joint initiative between CQUniversity Australia and a range of industry partners, including Sugar Research Australia.*

## Great support for the sugar industry stand at the Ekka

Federal Minister for Agriculture, Fisheries and Forestry, Murray Watt, was a special guest at the sugar industry stand at the Ekka last week. He tried out the virtual reality (VR) experience, visiting a cane farm, mill, and refinery, and chatted with representatives about the Sugar Plus roadmap and Smartcane BMP.

Other visitors included the Governor of Queensland, Dr Jeannette Young, the Queensland Minister for Agriculture and Fisheries, Mark Furner and the Federal Opposition leader, Peter Dutton. The stall was a collaborative effort between SRA, CANEGROWERS and Sunshine Sugar and hugely successful with children and adults alike.

### 3. Wilmar Media Release – New Evaporators Take Shape – Posted – 22/8/22

#### Wilmar Sugar

ABN 49 081 051 732

Level 1, 5-21 Denham Street  
Townsville QLD 4810  
[www.wilmar-international.com](http://www.wilmar-international.com)

18 August 2022

#### NEWS RELEASE

##### New evaporators take shape

While the focus at this time of year tends to be on the crush, Wilmar Sugar's work execution teams are working behind the scenes on major pieces of plant that will be installed once the season ends.

Crews at Wilmar's Burdekin Centralised Workshop are currently fabricating two new evaporators for Kalamia Mill.

Costed at around \$6 million each, the two vessels are among four replacement evaporators being installed at Kalamia over a three-year period.

The first evaporator was fabricated last year and installed ahead of this year's crush, the two vessels currently under construction will be installed ahead of the 2023 crush, and the fourth new vessel will be installed ahead of the 2024 season.

The total program of works is worth \$25 million and is being carried out in-house.

Work Execution Manager Glenn Brock said the major components were being fabricated at Pioneer Mill, while sections of pipe and other structures were being manufactured at Wilmar's Kalamia, Inkerman and Plane Creek Mill workshops.

"The new evaporators will replace older vessels that have reached end of life. We're also taking this opportunity to standardise the vessels in the evaporator station in terms of design, construction and capacity," he said.

"Each of the new evaporators will have a seven metre diameter and a heating surface area of 3250sqm."

The new evaporators are part of a much larger program to replace end-of-life vessels across all of Wilmar's eight sugar mills.

ENDS

*A Wilmar boilermaker works on one the evaporators being fabricated at the Burdekin Centralised workshop.*

*Project work is on track for the two evaporators being built in-house at Wilmar Sugar's workshops ahead of the 2023 season.*

**Comments:**  
A good crushing week with throughput above budget and CCS still heading back towards budget. Burdekin total weekly throughput and Inkerman weekly throughput are both the best for the season to date.

## Weekly Production Figures

### Burdekin region mills Week 10, ending 20 August 2022

| Cane crushed    | This week      | Season to date   |
|-----------------|----------------|------------------|
| Invicta         | 163,187        | 1,153,686        |
| Pioneer         | 79,460         | 434,768          |
| Kalamia         | 74,155         | 464,893          |
| Inkerman        | 87,854         | 532,846          |
| <b>Burdekin</b> | <b>404,656</b> | <b>2,586,193</b> |

| CCS             | This week    | Season to date |
|-----------------|--------------|----------------|
| Invicta         | 14.47        | 13.70          |
| Pioneer         | 14.34        | 13.41          |
| Kalamia         | 13.66        | 12.95          |
| Inkerman        | 13.89        | 13.02          |
| <b>Burdekin</b> | <b>14.17</b> | <b>13.38</b>   |

### Weekly variety performance for region

| Variety | %   | CCS   | Variety | %  | CCS   |
|---------|-----|-------|---------|----|-------|
| Q240    | 50% | 14.33 | Q232    | 5% | 13.88 |
| KQ228   | 28% | 14.01 | Q208    | 5% | 14.23 |
| Q183    | 8%  | 14.14 | WSRA17  | 3% | 13.98 |

### Comments:

Another good crushing week in the Burdekin saw just under 405,000 tonnes crushed – the highest weekly throughput for the region, season to date.

It brings the season total to just over 2.5M tonnes, or approximately 30 per cent of the forecast crop.

The average weekly CCS was 14.17, which is still below the original budget, but is getting closer due to the continued dry conditions.

The highest CCS sample was 17.4 from a rake of Q240-1R in the Stockham Road productivity zone.

We are one-third of the way through the season and the number of incidents and recorded near misses at level crossings remains very low.

Please continue to approach all cane rail crossings with caution and always give way to cane trains.

**John Tait**  
Cane Supply Manager  
Burdekin Region
