

From July 1st we have seen substantial increases to Energy prices all over Australia. What does that mean for you?

Insight into the Energy Market from July 1st

From July 1st we have seen substantial increases to Energy prices all over Australia. What does that mean for you?

In our latest webinar, Founder John Horan, discusses the global outlook, how to move from a Large Energy customer to a Small Energy Customer and how you can achieve this with a Solar PPA.

State of Business

Many businesses have been busy, however, are struggling to make money.

- Staff Shortages
- Rising staff retention costs
- Rising cost of materials due to supply constraints from COVID-19.
- Inflation on the rise to 6%
- Cost of fuel has risen to 60% since conflict in Ukraine.
- Cost of Capital has risen as well as being harder to obtain
- Cost of Energy has skyrocketed.
