

**Re: Business Opportunity for Sugarcane Tops and Trash – SKY Renewables Pty Ltd**

Burdekin Renewable Fuels Pty Ltd (BRF) has been working with SKY Renewables Pty Ltd on the development of a business opportunity to turn sugarcane tops and trash into pellets for export overseas for co-firing in coal-fired power generation assets to help generators meet strict emission reduction targets. Sugarcane is increasingly being seen as a preferred renewable source of biomass for this purpose.

Mr Simon Yim, Founder and CEO of SKY Renewables Pty Ltd will be visiting the Burdekin and would like to meet with growers to brief them on the project and run through the proposed business model that he has been discussing with BRF. The Directors of BRF, Greg Rossato, Richard Wall and Phil Marano will be present to answer any questions as well.

Members of Kalamia Cane Growers Organisation Ltd are invited to a presentation from Mr Simon Yim to learn more about this opportunity and details of the meeting are as follows:

Date: 28/8/23

Time: 2.00pm

Venue: Ayr Showgrounds Hall, 9 Edwards Street, Ayr

RSVP: Please RSVP by 24/8/23 via email: [bdk@canegrowers.com.au](mailto:bdk@canegrowers.com.au) or phone: 4790 3600.

Should you have any questions in this regard, please do not hesitate to contact me on 0418 713 563.
