

You are invited to our webinar next week. Save the Date!

The first webinar of the 2024 series will feature Professor Ben Hayes presenting on the ***Accelerating development of new sugar cane varieties with genomics.***

Professor Hayes has extensive research experience in the genetic improvement of livestock, crop, pasture and aquaculture species, focusing on integrating genomic information into breeding programs, including leading many large-scale projects that have successfully implemented genomic technologies in livestock and cropping industries.

**When:** Friday 2 February, 2024

**Time:** 2pm - 3.30pm

**Register:** [Click here to register for this webinar](#)
