# QSL Weekly Update

1 March 2024

## Now open: 2024-Season Actively Managed Pool

QSL's 2024-Season Actively Managed Pool (AMP) is now open for nominations.

This pool aims to outperform the average market and maximise pool returns by actively using a variety of pricing tools and trading strategies.

To nominate GEI Sugar tonnes to QSL's AMP for the 2024 Season, simply head to the 2024 Season declaration page on the QSL Direct portal or QSL App. Growers in non-QSL Direct regions can nominate via their Miller's pool nomination paperwork.

More information on the AMP can be found by [clicking here](#), or by contacting your local QSL team.

**Nominations close 30 April 2024.**

## Closing soon: 2024 Season Pre-Crush Advance

Do you need increased cash flow prior to the 2024 harvest? The QSL Pre-Crush Advance Payment Scheme gives QSL Direct growers a payment for their 2024-Season QSL GEI Sugar in March 2024 – before the crush begins.

QSL passes on the charge for this product at cost, set at \$1.60/tonne IPS sugar, and is incorporated into the grower's final pool prices via a specific allocation from the QSL Shared Pool.

## HOW TO APPLY

Click on the 'Season Preferences' tab in the 2024 Season section of your QSL Direct account and nominate up to 50% of your GEI tonnage in the 'Pre-Crush Advance' field.

**Applications close 10 March 2024.**

More information is available by [clicking here](#), or by getting in touch with your local QSL team.
