

E.E. Muir & Sons

PRE-PAY+

Execution of Agreement

What is the program?

PRE-PAY+, is a simple accrual-based rewards program, based around a cash commitment to E.E Muir & Sons or Serve-Ag.

PRE-PAY+ earns “Bonus Stock” credits which can be used to purchase from any E.E Muir & Sons or Serve-Ag Branch across Australia.

How do I qualify?

Qualify for **PRE-PAY+** simply by placing a cash advance in your account, which can then be used for all agronomical input purchases.

The only qualifying criteria required for entry to the program are:

1. A minimum of \$10,000 to be lodged on the client's trading facility as a cash advance.
(An invoice will be issued at time of funds transfer into your account on receipt of payment)
2. An account turnover of \$10,000 or greater, as an annual spend with E.E. Muir & Sons (or Serve-Ag) from PRE-PAY+ initiation date.
(PRE-PAY+ access will be retracted if account turnover is less the \$10,000 annual spend)

How does the program work?

Each month over the 12 months of **PRE-PAY+**, your trading account will be rewarded by accumulating value, which can then be used to purchase additional ‘Bonus Stock’ from E.E. Muir & Sons or Serve-Ag. In consideration for joining **PRE-PAY+**, your account will be rewarded to the value of **5.0% per annum**. Commit to “PICK UP ONLY” and accrue **5.5% per annum**.

The accumulation period is limited by a 12-month maximum sunset clause, starting from the 1st of the next month post the Initiation Date.

What are the benefits of participation in the program?

Our network of experienced Agronomists can help you focus your time & resources at delivering superior growing outcomes during the 12-month growing period.

Whilst you are devoted to growing the best crops possible, **PRE-PAY+** enables the accumulation of bonus stock value to your account, whilst you focus on maximising farm yield and profitability.

Terms & Conditions

1. Under **PRE-PAY+**, “Bonus Stock” will accumulate from the 1st of the next month post the Initiation Date, with a 12-month sunset clause
