2023 Season June Advance rate increase

The 2023 QSL Standard Advance rate for June was confirmed this week and will increase to 97.5%, previously 95%, from 19 June.

QSL Direct growers will be able to access their updated cashflow forecast in their accounts from next week.

QSL Direct portal updates

A revamped QSL Direct portal will be released next month, featuring a range of new features, including all the handy tools you enjoy in the QSL App. Watch this space next week for more details.

QSL Board meet and greet

Growers in the Southern Queensland region are invited to join the QSL Board and executive team for a meet and greet in June. Come along to hear a business update from General Manager Marketing Mark Hampson and General Manager Operations Adam Viertel, and catch up on all the latest market intel from Senior Manager of Marketing and Risk Matt Page. Event details are:

WEDNESDAY 5 JUNE | MARYBOROUGH

1:30pm, Canegrowers Maryborough, 106 Bazaar Street

THURSDAY 6 JUNE | CHILDERS

10:00am, Canegrowers Childers, 48 Churchill Street

THURSDAY 6 June | BUNDABERG

6:00pm, Burnett Riverside Hotel, 7 Quay Street

For catering purposes, RSVP to Glenn Harris on 0409 601 349.

QSL App | Converting sugar value to cane value

Want to convert your weighted average sugar price to dollars per tonne of cane?

Head to the *Cane to Sugar Value Converter* in the *Tools* section of the QSL App, select your region and enter your estimated CCS and sugar price (\$/tonne IPS).

You don't need to be a QSL Direct grower to access this feature – anyone with the QSL App on their device can use it.

Education | What is the Williams Brazil Sugar Lineup Report?

The Williams Brazil Sugar Lineup Report is a detailed publication that tracks the shipping activity of sugar from Brazilian ports.

Published by Williams Shipping Agency, a well-known maritime and logistics service provider, the report includes information on scheduled shipments, loading status, port activity and cargo information. The report provides insight into the current and upcoming availability of Brazilian sugar which is crucial for market participants to understand supply conditions.
