

Variety Guide
2024/25
Burdekin Region
Now available

Dear Grower,

Sugar Research Australia's **2024/2025 Variety Guide for the Burdekin region** is now available.

A PDF/digital copy of this guide can be located here:

https://sugarresearch.com.au/sugar_files/2024/06/SRA_Variety-Guide-2024-25_Burdekin.pdf

This guide is designed to assist you in your agronomic considerations when selecting new varieties of sugarcane to trial and plant on your farm.

The information contained within the guide comes from Sugar Research Australia's latest data of performance and disease ratings available for your region. This performance information is presented to the Burdekin Regional Variety Committee to determine the variety release pipeline.

Variety breeding and selection forms the foundation of Sugar Research Australia's work to improve the productivity, sustainability, and competitiveness of Australia's sugarcane industry.

We value your contribution in ensuring we continue to develop innovative, high-performing varieties which underpin the success of the industry's crop production and protection. Feedback to improve the data and format of the Variety Guides is always welcome.

Sugar Research Australia produces variety guides for the Northern, Herbert, Burdekin, Central, Southern and NSW cane growing regions, and the guides can be found in PDF format on our website: sugarresearch.com.au

If you have any questions about the guide and SRA's varieties, I encourage you to contact SRA Burdekin Variety Officer, Catherine Kettle, email: CKettle@sugarresearch.com.au

If you would like a printed copy of the guide posted to you, please contact Catherine with your request.

Yours faithfully,

Jason Eglinton
SRA General Manager, Variety Development
