QSL Indicative Advance Rate Schedule

Under QSL's Advances program, supplying growers and millers are paid a proportional amount of their current estimated final sugar pricing result.

The above program is indicative only and may change during the course of the season, and so should not be taken as a commitment by QSL with regard to either the Advance rate or date of increase. The QSL Board reviews the program periodically to determine whether scheduled increases should be approved or amended, weighing factors such as movements in the marketing and shipping plans, sugar price and currency movements and the timing of cash flows. Suppliers' positions in relation to any pricing elections may also impact the timing and size of Advance payments.
