

KCGO Members

You're invited to the Burdekin Region Water Quality Science Forum.

Join us to hear what the latest science is telling us about water quality in the Great Barrier Reef, and how local on-ground actions in the Burdekin are helping to improve water quality.

Tuesday, 10 September

Mercure Townsville | Burdekin Room

166-194 Woolcock Street Service Rd, Currajong

Register by: 3 September

The forum is bringing together scientists, natural resource and catchment management organisations and industry groups to discuss what the science is telling us about water quality in the Burdekin catchment, and plan for how the Burdekin region can help meet Reef 2050 Water Quality Improvement Plan targets.

Presentations:

- 2022 Scientific Consensus Statement
- 2050 Water Quality Improvement Plan
- Paddock to Reef Program
- Local management practice change and on-ground projects
- Burdekin Region Water Quality Strategy (planning overview)

This forum is jointly funded by the Australian and Queensland government's Paddock to Reef Integrated Monitoring, Modelling and Reporting Program and the Australian government's Reef Trust program.

Don't forget to register by 3 September either [at this form](#) or to Kirsty Passfield on 4799 3506.

This event is an opportunity to network and contribute to the region's water quality strategy.

See you there!
