

BUSINESS UPDATE

wilmar
Sugar and Renewables

Friday, 30 August 2024

Unions have notified us of planned industrial action at all sites from 5pm to 6pm next Tuesday (3 September).

Our Operations team has optimised plans around the work stoppages to reduce the impact on our operations.

The impact on production is expected to range from 1.5 hours to 10 hours, depending on each site's circumstances.

We have scheduled a cleaning intermission for Victoria Mill's B side ahead of the industrial stoppage. This will extend the overall downtime for B side.

Our logistics team will be in touch with harvesting groups about the impact on loadings.

Best regards

IAN DAVIES

General Manager Cane Supply and Grower Relations
