

QSL Weekly Update

6 September 2024

20 September | Upcoming pricing deadline

Target Price Contact

Any 2024-Season Target Price Contract tonnage not priced by 20 September 2024 will automatically have its pricing window extended and roll adjustments applied.

Individual Futures Contract and Self-Managed Harvest Contract

Any unpriced tonnage allocated to the ICE 11 October 2024 contract through the Individual Futures Contract and/or Self-Managed Harvest Contract that is not rolled by 20 September 2024 will be priced by QSL at the next market opportunity.

More information on QSL's grower-managed pricing products is available by [clicking here](#).

Education | ICE 11 contract spread

The spread between two ICE 11 contracts represents the difference in their spot prices. The spread tends to vary throughout the year as sugar demand and supply changes, influenced by factors such as the timing of global harvest seasons.

For example, the October 2024/March 2025 contract spread as at 6 September is -0.31 USc/lb (19.22 USc/lb less 19.53 USc/lb).

Catch up on the latest raw sugar market and currency activity in this week's Market Update, available by [clicking here](#).

Agrotrend Bundaberg 2024

QSL is a proud supporter of this year's Agrotrend being held in Bundaberg this month.

Where: Bundaberg Recreational Precinct, University Drive, Bundaberg

When: Friday 20 and Saturday 21 September – Stop by the Canetrends stall on Friday 20 September to have a chat with QSL Grower Relationship Officer Glenn Harris.

More information on the event can be found by [clicking here](#).

2024-Season pricing commitments

Concerned about meeting your pricing commitments? QSL has a range of mechanisms available to help address overcommitment, including washing out positions or rolling pricing forward into the next season.

Growers who are worried about delivering enough sugar to satisfy their 2024-Season orders can contact their local QSL team to discuss their options. Please note that the options available to growers in non-QSL Direct regions are at the discretion of their miller.

More information about QSL's non-delivery options is available by [clicking here](#).
