

## FW: ISSCT Bulletin - October 2024

We are pleased to present you with the October 2024 issue of the ISSCT Bulletin which you may access through the following link:

<https://issct.org/wp-content/uploads/2022/10/ISSCT-Bulletin-October-2024-2.pdf>

The Bulletin contains the Report on the ISSCT Agriculture Commission Workshop held in Thailand from 19 to 22 August 2024.

The Workshops of the Co-Products and Factory Commissions were held in September and October, respectively. They were very successful judged by their attendance and their contents. Reports of the Workshops will be included in the December issue of the ISSCT Bulletin. In the meantime, links to the booklets containing the programmes and the abstracts of oral presentations and posters may be found in the Bulletin.

The Bulletin also includes an update on the ISSCT XXXII Centennial Congress, a feature on ***Sterile insect technique application against sugarcane stalk borer *Eldana saccharina**** as well as latest news, research, past and upcoming events related to sugar cane technology.

We hope that you will find this issue of the Bulletin interesting.

We would like to encourage you to contribute to the next issue scheduled for December 2024. Your contributions should reach us by 30 November 2024.

Please circulate this Bulletin among your colleagues and in your networks so as to promote the ISSCT nationally and internationally.

Kind regards

Jean Claude Autrey  
General Secretary
