Comments:

The Burdekin mills processed just under 330,000 tonnes of cane for the week which is below budget due mainly to cleaning intermissions at Invicta and Inkerman and some extended unplanned stops at Kalamia and Pioneer.

The season-to-date total is now 6.12M tonnes, which represents 75% of the Burdekin region's crop forecast of 8.20M tonnes.

The average weekly CCS was 14.59, which is increasing with the hot dry conditions.

The highest CCS, of 17.7, was from rakes of Q183 2R in the Jardine (Pioneer) and Mulgrave (Invicta) productivity districts.

Remember to always use your train brain and give way to trains at road crossings.
