

## Weekly Production Figures

### Burdekin region mills Week 22, ending 9 November 2024

Cane crushed	This week	Season to date
Invicta	137,074	2,492,898
Pioneer	65,544	1,179,470
Kalamia	77,229	1,326,338
Inkerman	85,153	1,488,482
<b>Burdekin</b>	<b>365,000</b>	<b>6,487,187</b>

CCS	This week	Season to date
Invicta	14.82	14.39
Pioneer	14.58	14.36
Kalamia	14.08	13.90
Inkerman	14.56	14.13
<b>Burdekin</b>	<b>14.56</b>	<b>14.22</b>

#### Weekly variety performance for region

Variety	%	CCS	Variety	%	CCS
Q240	60%	14.78	Q183	7%	15.66
KQ228	12%	13.66	Q232	5%	14.37
Q208	10%	14.38	WSRA17	5%	12.89

#### Comments:

The Burdekin mills processed 365,000 tonnes of cane for the week which exceeded budget. No time was lost for wet weather.

The season-to-date total is now 6.49M tonnes, which represents almost 80 per cent of the Burdekin region's crop forecast of 8.20M tonnes.

The average weekly CCS was 14.56, which is in line with budget forecasts.

The highest CCS, of 17.8, was from rakes of Q240 1R and Q240 5R both in the Leichhardt (INK) productivity districts.

A number of near misses were reported involving cars racing trains at level crossings.

Remember to exercise some patience, use your train brain and always give way to trains at road crossings.
